EXPERIENCE

Full Stack Developer   Dec 2023 – Present
Waniskâw Foundation   *Victoria, Canada*
- Architected Node.js backend endpoints to enhance server-side processing efficiency and integrated AWS S3.
- Leveraged SASS to develop a responsive user interface, ensuring seamless access to educational content.
- Enhanced scalability and data access by integrating MongoDB for user and project management.

Frontend Developer   Aug 2023 – Present
Summations   *Toronto, Canada*
- Optimized web assets by implementing code splitting, achieving a 30% reduction in load times and substantial web performance improvements verified by Lighthouse benchmarks.
- Crafted custom Mantine UI components, achieving a 20% increase in accessibility score, significantly improving the user interface, and enriching the user experience for a diverse academic audience.
- Utilized Next.js 14 for server-side rendering to improve SEO and performance for Summations' website.
- Conducted thorough quality control, rigorously testing website features for optimal performance.

Frontend Developer   Jun 2023 – Dec 2023
e-Epic Technologies   *Vancouver, Canada*
- Streamlined data retrieval with GraphQL queries, improving application performance by 15%.
- Integrated APIs for dynamic content and services, enhancing web app functionality and user engagement.
- Fostered cross-functional collaboration, ensuring seamless frontend and backend integration.

TECHNICAL SKILLS

JavaScript | HTML | CSS | React | TypeScript | Redux | styled-components | Material UI | TailwindCSS
NodeJS | Express | MongoDB | MySQL | PHP | GraphQL | Docker | Strapi | Stripe | AWS | Vue

PROJECTS

Kadirov Shop - Full Stack App (Live Preview | Source Code)   Oct 2023
(React / SASS / Strapi / Stripe)
- Developed an e-commerce platform with a pleasing and aesthetic user interface using React.js and SASS.
- Utilized a headless CMS for streamlined product and content handling, ensuring smoother management.
- Added search, product suggestions, and user profiles with purchase history to improve engagement.

Movie Deck - Full Stack App (Live Preview | Source Code)   Jul 2023
(React / Node.js / Express / MongoDB / TailwindCSS / styled-components)
- Created a user-centric movie application with an intuitive interface using React and Styled-Components.
- Engineered the backend with Node.js and Express, providing a strong foundation for the movie application.
- Incorporated MongoDB, JWT, and bcrypt for efficient data handling and robust user security.

EDUCATION

Cornerstone International Community College of Canada   Sept 2022 - Oct 2023
Web and Mobile Application Development Diploma   *Vancouver, Canada*

AWS Solutions Architect - Associate Certification   Jan 2024 - Present
